Remote triggering with the MikroKopter

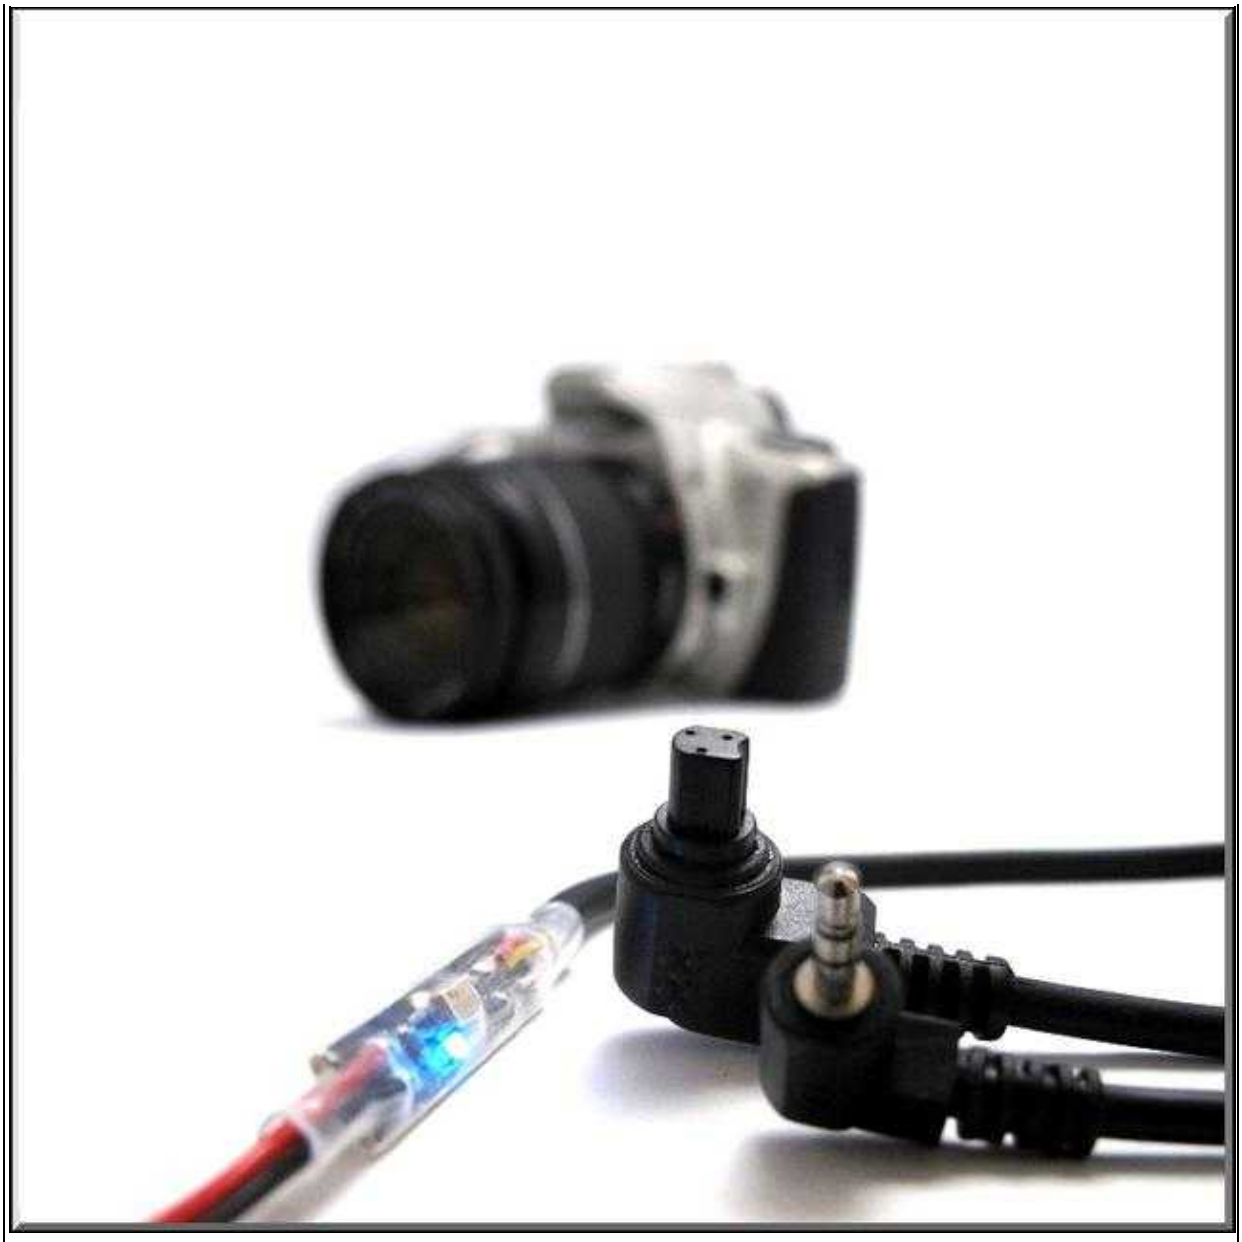

- deutsch
- français

We offer different system to trigger a photo-, video-, thermal imaging- or other camera on the MikroKopter:

- **Shuttercable**
  - Cable Remote Trigger for different cameras with 2.5mm jack or N3 socket.
- **IR-Ctrl**
  - Remote operation of different photo-, video-, thermal imaging- or other cameras via IR.
  - Up to 4 functions can be taught in with the original remote control of your photo-, video- or other camera into the IR Control.
- **LANC-Ctrl**
  - Controls the function of a slow zoom, REC ON/OFF and the photo trigger of several video cameras via the LANC protocol.

A description of each item can be found on the following wiki pages:
